4 December 2002

MEMORANDUM FOR DEPUTY COMMANDANT, (INSTALLATIONS AND LOGISTICS)

SUBJECT: REQUEST TO CANCEL PROGRAMMED A-76 STUDIES

Ref: (a) DCMC (I&L) memo dtd 22 Nov 2002

Your request in the reference to cancel and re-announce two commercial activity studies being conducted at Marine Corps Base Camp Lejeune, North Carolina and Marine Corps Base Camp Pendleton, California is approved. The functions represented by 944 civilian and 97 military positions at these locations will be included in the next available Department of the Navy notification to Congress of functions to potentially be reviewed in accordance with OMB Circular A-76.

We note that the time allowance for the completion of cost comparisons may be reduced to 12 months by issuance of revisions to OMB Circular A-76, which may impact your proposal of completion within 18 to 24 months.

ASN I&E point of contact for this matter is, Mr. Rex Williams, (703) 697-3488, williams.rex@hq.navy.mil.

Subj: REQUEST TO CANCEL PROGRAMMED A-76 STUDIES

study, including information technology (IT) positions, mainly related to the impact of the Navy Marine Corps Intranet, inherently governmental positions, some military reallocations, Garrison Mobile Equipment (GME) Regionalization, vacancies not filled and removed from manning levels, and Family Housing billets that are scheduled for privatization in FY05. As a result, the proposed new study will include 413 civilians and 13 military positions.

5. Marine Corps Base Camp Lejeune originally announced 821 civilians and 300 military positions for competition. During the original 1999 study, the numbers were adjusted to 706 civilians and 155 military to better represent the study's correct business unit and manning levels. Similar to the MCB Camp Pendleton study, several categories have been removed from the new study, including IT positions, inherently governmental positions, military reallocations, additional functions no longer available because of vacancies not filled and removed from manning levels, and family housing billets scheduled for privatization in FY05. As a result, the proposed new study will include 531 civilians and 84 military positions.

6. Your support for both the cancellation and Congressional re-announcements of the MCB Camp Lejeune and MCB Camp Pendleton A-76 studies is requested.
